

PREMIER SHOT
BY ASSASSINOpera at Kiev, Russia, Scene
of the Crime.

THIRD ATTEMPT ON HIS LIFE

Two Shots Fired From Behind by a
Lawyer Named Bogrof Give Prob-
ably Mortal Wounds—He Was Uni-
versally Disliked Throughout Em-
pire and Expected Assassination.Kiev, Russia, Sept. 15.—The Russian
premier, P. A. Stolypin, was attacked
while attending a gala performance at
the opera here.He was wounded twice by his assas-
sant. One bullet entered his hand,
while the other penetrated the body,
grazing the liver and lodging in the
spine.It is reported that the premier's
wounds are mortal.Emperor Nicholas was present in
the theater at the time. The premier's
assault was arrested.The two bullets were fired from be-
hind by a lawyer named Bogrof.The assemblage tried to lynch the
assassin.Some reports have it that a mus-
cian also was wounded.The minister of finance, M. Kokov-
off, was sitting beside the premier at
the time of the attack.This is not the first attempt made
against the life of Premier Stolypin.When he was governor of Saratov in
1905 three shots were fired at him, but
without effect. Aug. 25, 1906, a bomb
was thrown when Stolypin, then pre-
mier, was holding a public reception
at his country house at Aptekarsky
Island. The premier was slightly
wounded. Thirty-two persons were
killed and a still larger number wound-
ed. Among the latter was the pre-
mier's fifteen-year-old daughter and
his three-year-old son.When Stolypin accepted the pre-
miership in July, 1906, he was per-
fectly conscious of his danger. He re-
marked at the time:"I have no doubt that attempts will
be made upon my life, but I hope that
order will be restored and stability
established in Russia before they are
successful."As Stolypin outlined the policy of
the government, it was to be one of
"strong handed reform." He promptly
issued circulars to the provincial au-
thorities directing them to spare no
efforts to prevent disturbances. As
minister of the interior, prior to tak-
ing over the premiership, he was as-
sailed in the duma, in making his
first speech, with cries of "Murderer"
and "Assassin" when he defended the
alleged illegal acts of police officials
and provincial governors in the sup-
pression of disorder.The retaliatory steps which he took
against the terrorists and liberals
alike won him the detestation of the
advanced parties and the support of
the administration. He quarreled fre-
quently with the duma and was vic-
torious in his disputes with that body
owing to the confidence which the
emperor placed in him.Stolypin resigned as premier and
minister of the interior on March 20
of this year, but three days later re-
considered his action.

The Return of the Prodigal.

When the elder brother of the prodig-
al son came near his father's house
he heard, according to the authorized
version, "music and dancing." Dr.
Rendel Harris, in an address at West-
minster college, Cambridge, says that
the word for music in the original is
"symphony" and that symphony means
the bagpipes. Wycliffe's version gives
the word symphony, but no other
translator has done so. Wycliffe also
says that he heard "symphony and a
crowd." Now, crowd is the Welsh
word for harp. In view of the two
instruments Dr. Harris says that the
elder brother had some justification
for getting angry.—Christian World.

The Orchid.

The orchid is a peculiar plant, for,
strange as it may seem, there is no
distinctive orchid odor. One smells
like the violet, others like the rose, the
hyacinth, the daffodil. Orchids are the
monkeys, the monkeys of the vegetable
world, in odor as well as form and
tint. No other flower resembles an or-
chid, but orchids are forever aping
butterflies, pansies, boots, spiders
pitch plants, birds and what not. And
they are not absolutely certain to look
just the same twice in succession.

OPPOSE WAR OVER MOROCCO

But German Socialists Will Support
Judicious Colonial Policy.Berlin, Sept. 15.—Discussing the
Moroccan situation at the Social-Dem-
ocratic congress Herr Bebel, the lead-
er of the Socialists in the reichstag,
denounced the reports that the Social-
ists would proclaim a general political
strike in case of war. The opposition
of German Socialists to such methods
was well known, he said.Herr Bebel added that the Social-
ists would support a judicial colonial
policy and demand for Germany full
equality in the commerce and indus-
trial development of Morocco, but
they believed that it would be crim-
inal and frivolous to engage in war
on account of Morocco.RATE DECISION
IS CONDEMNEDGovernors Appoint Committee to
Protest to Supreme Court.

INVASION OF STATE'S RIGHTS

Committee Headed by Governor Har-
mon of Ohio Will Carry Protest Be-
fore Supreme Court—Action Estab-
lishes Precedent in American His-
tory—Kitchin Is Only Opponent.Spring Lake, N. J., Sept. 15.—Gov-
ernors of twenty-five states of the
Union voted to unite in protest to the
United States supreme court against
what they consider an invasion of
state's rights by federal courts.The decision of Judge Sanborn of
St. Paul in the Minnesota rate case
is the particular "invasion" to which
the governors object. By their action
they establish a precedent in Ameri-
can history.Judson Harmon, governor of Ohio
and former attorney general of the
United States, will head a committee
of protest. His colleagues will be
Herbert S. Hadley, governor of Mis-
souri, and Chester H. Aldrich, gov-
ernor of Nebraska. The motion to
appoint such a committee to voice the
views of the conference was made by
Governor Emmett O'Neal of Alabama,
which placed the membership at five.Action was declared unanimous, al-
though Governor William W. Kitchin
of North Carolina, the twenty-fifth
delegate, who alone opposed it, did
so, he said, solely because it would
be a departure from precedent.

Harmon Supplied Suggestion.

Governor Harmon supplied the origi-
nal suggestion for the plan, accord-
ing to Governor O'Neal. In the sharp
debate which followed the measure's
introduction Governor Harmon took
no part.Introduction of the motion was un-
expected by the majority of the dele-
gates. Governor Aldrich's ringing de-
nunciation of what he termed the in-
vasion of the functions and rights of
the states by the minor federal courts,
discussed during the forenoon session,
provoked enthusiastic applause and
was followed in the afternoon by an
address by Governor Francis E. Mc-
Govern of Wisconsin on the same
topic. With the subject fresh in mind,
the governors debated the question for
an hour or more before Governor
O'Neal introduced his motion.In his speech Governor Aldrich re-
ferred in terms of condemnation to
the decision of Justice Sanborn of the
United States circuit court in the Min-
nesota rate case. He explained that
the point of the decision was that
the state's intrastate rate law was un-
constitutional because it could not be
enforced without interfering in its op-
eration with the authority of the in-
terstate commerce commission. This,
he thought, was clearly an invasion of
state's rights.

BRYAN HIDES HIS PARTY

"Wall Street Brand of Harmony" Will
Be Fatal, He Says.Lincoln, Neb., Sept. 15.—William J.
Bryan will have none of the Wall
street brand of harmony. In his Com-
moner he editorially denounces Wall
street and its methods, saying:"Some good Democrats have been
deceived by the 'harmony' cry. They
want harmony. Wall street is bribing
the corruptible, following the gullible
and frightening the timid. Strange
that any can be misled. Harmony
means to halt. Harmony will cost the
party its chances of success. We have
not had harmony in the party for
fifteen years, but we have seen the pro-
gressive element of the party domi-
nating the political thought of the
country, and it is ready to sweep the
country. Shall we turn over the
fighting to the progressive Republic-
ans?""The Wall street crowd will be at
the next convention, as usual, ready
to sell harmony at wholesale at the
regular price, namely, the betrayal of
the public. What we need is not har-
mony, but a straightforward fight for
principle in behalf of the public—such
a fight will win."The Wall street crowd will be at
the next convention, as usual, ready
to sell harmony at wholesale at the
regular price, namely, the betrayal of
the public. What we need is not har-
mony, but a straightforward fight for
principle in behalf of the public—such
a fight will win."

BRYAN ON COUNTRY LIFE

Subject of His Address at Conserva-
tion Congress.Kansas City, Sept. 15.—William J.
Bryan will address the National Con-
servation congress here next month
on "The Country Life Movement." The
address will be made the closing
day, Sept. 27.Efforts still are being made to in-
duce Theodore Roosevelt to come here
for the congress.

Shoots Two; Kills Self.

Lawrence, Kan., Sept. 15.—Dr. C.
C. Payne of Eudora, Kan., shot his
wife and his mother-in-law, Mrs. M.
E. Smith, and then committed suicide
here. The women will recover.

PREMIER STOLYPIN.

Attacked and Shot While
at Performance in Theater.VILLAGERS DEFIED BY
TEACHER'S ASSAILANTFugitive Supposed to Be George
Brown of Hanna, N. D.Winnipeg, Sept. 15.—Residents of
La Riviere, a village nineteen miles
north of Snowflake, had an oppor-
tunity of capturing the man who com-
mitted the assault on Miss Price, the
schoolteacher. The suspect was
board a westbound freight train at
La Riviere, but was pulled off by the
train crew as he was mounting the top
of the car.He then went to the village, and
while eating supper at the hotel his
resemblance to the suspect attracted
the attention of four men hanging
around, but they were all afraid to
arrest him, no one in the village at the
time having the necessary authority
or being armed.A telephone message was sent to
Snowflake to the police there and two
constables came over in an automo-
bile.In the meantime a cordon was
formed around the suspect after he
had left the hotel and was proceeding
down the track, but he easily broke
through, holding a revolver in a
threatening position aimed at his
would be captors, none of whom was
armed.Late at night the constables
searched the railway yards and all
buildings and likely hiding places.He has been recognized by his de-
scription by the Hallicyrs, farmers of
Hanna, N. D., as a farmhand named
George Brown, who worked for them
in July and August and who was dis-
missed owing to his unbecoming be-
havior to a fifteen-year-old girl in the
Hallicyrs' employ.

GRAND JURY NEAR FINISHED

Dr. Dumas Still Feels Confident of
Outcome.Bemidji, Minn., Sept. 15.—Although
it has been in session since Tuesday
noon the Beltrami grand jury is still
listening to evidence in the case
against Dr. D. F. Dumas, mayor of
Cass Lake and son of a Minneapolis
business man, who is charged by the
state fire marshal's office with arson
and robbery.The long drawn out work of the
grand jury is believed to indicate
preparation of charges other than the
alleged plot to burn and rob the post-
office building at Puposki. The grand
jury is expected to report soon.Dr. Dumas, who is spending much
of his time here, expressed amuse-
ment over the publication in an out-
side paper that he was becoming
downhearted over the outcome of the
charges against him. "If I am less
jolly than usual," he said, "it is news
to me, for I feel as confident of the
outcome now as I have at any time.
This talk that the case is causing me
to become discouraged is simply news-
paper dope."

Prices Decline on Bourse.

Berlin, Sept. 15.—The German for-
eign office anxiously awaited the cli-
max of the Franco-German difficulty
which will be reached with the arrival
of the French courier who left Paris
with France's reply to the German
Moroccan proposals. The bourse,
nervous for weeks, has settled into a
depression that resulted in a general
decline of prices.

Our First Cotton Exports.

The earliest exports of cotton from
America were made in 1785, in which
year one bag was sent from Charles-
ton to Liverpool, while twelve were
sent from Philadelphia and one from
New York.

\$180,000 ON SUNKEN RAMONA

Alaska Bullion Probably Will Be Re-
covered From Ship.Seattle, Wash., Sept. 15.—When the
steamer Ramona foundered and sank
off Spanish Island, Alaska, last Sun-
day night she carried down with her
\$180,000 of gold bullion from the
Treadwell mine, consigned to San
Francisco. "The ship lies in water
that is usually smooth and it is
thought the treasure will be recovered
easily.""FAVORITE SONS"
IN MANY STATESHave Small Chance For Demo-
cratic Nomination.

SECOND CHOICE IS IMPORTANT

After First Complimentary Votes Are
Cast in the Convention Will Come
Real Test of Strength—Champ Clark
Refuses to Invade States Where His
Rivals Reside.By ARTHUR W. DUNN.
Washington, Sept. 15.—[Special.]—
Men who are considering presidential
politics, and there are quite a num-
ber who do the figuring in the dull
season, have been watching the vary-
ing tides in the Democratic party with
much interest.From the present outlook it appears
that the second choice of delegates
will cut more of a figure than anything
else in determining who will be the
nominee for president. In all proba-
bility there will be more "favorite
sons" than have been seen in any con-
vention in recent years. It is not be-
lieved that these will last very long
and that the delegations which vote
for them will swing to one or the other
of the real candidates and that the
second choice of the "favorite sons"
states will name the successful man.Consequently there is much specula-
tion as to where the states with such
candidates will go after the com-
plimentary ballots have been given.At present it is conceded that Wilson
of New Jersey, Harmon of Ohio and
Clark of Missouri are not in the "fa-
vorite son" class. Underwood of Ala-
bama, Baldwin of Connecticut, Dix
of New York, Marshall of Indiana,
Newlands of Nevada and the Pacific
coast, Hoke Smith of Georgia, Foss
of Massachusetts and Plaisted of Maine
may all be classed as men destined to
receive complimentary votes, but whose
chances for the nomination are remote.
Just what the delegations from these
states and delegations from other
states which may support them may
do is important in making calculations
as to the result.Naturally the friends of the leading
candidates claim that their man is to
have the benefit of the scattered votes
when the break comes. The fact that
such delegations cannot openly ex-
press a preference for second choice
as long as the "favorite son" is before
the convention will have a tendency
to prolong the uncertainty of the re-
sult.

Clark Is Courteous.

Friends of Champ Clark made an
effort to get a campaign started for
him in Ohio, but those who attend to
the political business for the speaker
declined to allow any campaign to be
made for delegations in Ohio, New
Jersey, Indiana and other states where
activity for a resident has been man-
ifested and where there are actual
presidential candidates. More than
that, they have said that inasmuch as
the speaker is not an avowed candi-
date his friends cannot have a formal
organization looking after his inter-
ests.

Alabama Comes Forward.

Oscar Underwood was not among
the list of eligibles that Mr. Bryan
put forth as presidential possibilities
satisfactory to him. But that has not
deterred the Alabama delegation from
making Underwood a favorite son.
By the way, Underwood, like Bailey,
is one of the few men who have been
bold enough to talk right out and say
what they think of Bryan. Under-
wood made his remarks when Bryan
denounced the wool bill as a fraud
upon the Democratic party.

Navy Nature Fakers.

Reports that whales were careening
beside the submarines of the navy
while these under water vessels were
out in the maneuvers are considered
nature fakes by some of the more
skeptical navy officers. They realize
that the silly season of sea serpents
and fish stories is at its height and
that the fellow with the biggest story
gets the most notice in the headlines.
When telling a story tell a good one.
Whales making playmates of subma-
rines is the best so far.

Peaceful Aguinado.

"Aguinado has dropped out of sight,"
remarked a man who has just returned
from the Philippines. "A dozen years
ago he was the most notorious individ-
ual in the United States or its posses-
sions. Now he is peacefully making a
hemp plantation in Cavite province.
When he ended his warfare with the
United States he stopped for good and
all. He may not be reconciled to Ameri-
can rule in the Philippines, but he has
never uttered a word to that effect
since he accepted the terms of our
government."

Known by Their Tags.

They have a new way of spotting
Americans abroad. It seems that near-
ly all smokers from this country carry
bags of tobacco with the little round
tags hanging on the outside of their
pockets. These tags on one famous
brand of tobacco are so well known
that the citizenship of the man who
bears it is at once known. Particu-
larly is this the case with the American
blue jackets and marines that have
been abroad with the warships. The
American sailor can always be told by
his tag.

The Better Way.

"I expect to wake up some day and
find myself famous."
"Better keep on dreaming, old man."

RODNEY J. DIEGEL.

Protests That He Has No
Knowledge of Bribery.

DIEGEL HAS NOT CONFESSED

Says Now He Knows Nothing of Any
Bribery in Ohio.Dayton, O., Sept. 15.—Rodney J.
Diegel, the elusive convicted sergeant-
at-arms of the Ohio state senate, has
not confessed. After much ado lest
the man sentenced to three years in the
penitentiary for complicity in bribery
would make sensational revela-
tions to save himself from prison, Die-
gel appeared here and declared he had
absolutely no knowledge of the guilt
of any one, and steadfastly maintained
innocence of the crime for which he
was convicted.LIGHTNING KILLS
YOUTHFUL VICTIMNorth Dakota Barn Struck and
Several Injured.Langdon, N. D., Sept. 15.—One
young man was killed and four others
were injured when lightning struck a
barn on the Otto Detler farm south-
west of here. William Wahletz, six-
teen years old, was killed and Leonard
Detler, Otto Detler, Rudolph Miller
and James Brockhoff were injured.The escape of Brockhoff was mirac-
ulous, as it was not known that he
was in the barn. The four persons
known to have been in the building,
all rendered unconscious, were taken
out and it was not until smoke was
seen issuing from the haymow and
men tried to fight the fire that Brock-
hoff was found. The fire already had
reached him, burning his clothing.Sixteen horses were in the barn and
all of them were knocked unconscious
and were lying on the floor when as-
sistance arrived, but one by one they
recovered and were taken out.Considerable other damage was also
done in the storm on the Frank Caves
farm. A big barn was struck and
burned, while several other big barns
also were destroyed.

EARLY SETTLER IS DEAD

Mrs. Mary Archambault, Born in St.
Paul in 1842.St. Paul, Sept. 15.—Mrs. Mary
Archambault, one of the first white
children born in St. Paul, is dead at
the home of a daughter, Mrs. William
Reddy.Mrs. Archambault was the daughter
of Charles T. Rouleau, Sr., and was
born Aug. 24, 1842. She was one of
the first three children baptized in the
chapel of St. Paul, the ceremony hav-
ing been performed by Father Gaultier,
a Catholic missionary.She was a sister of Captain Charles
T. Rouleau of the police department,
now in charge of Duca street police
station, and besides him is survived
by one sister, Mrs. Anthony Vallee,
Zephirine Archambault, her husband,
and six children.Mrs. Archambault suffered a stroke
of paralysis several months ago.She is mentioned in Newton's "Pen
Pictures" of St. Paul as one of the
first white children born here, and in
his book he includes an interesting
paragraph of Mrs. Archambault's im-
pressions of the growth of St. Paul.

MONTANA'S CROP IS LARGE

Louis Hill Thinks It Will Double Last
Year's.St. Paul, Sept. 15.—Twice as many
bushels of wheat will be harvested in
Montana this fall as last year or in
1909, according to Louis W. Hill, pre-
sident of the Great Northern railroad,
who has returned from a trip on which
he visited Glacier and Yellowstone
parks."In 1909 and 1910 Montana raised
2,500,000 bushels of wheat," he said,
"but they expect to harvest 5,000,000
bushels this year. Of course there is
more acreage devoted to this grain.
Our estimates indicate there will be
twice the yield of last year.""In North Dakota they estimate they
will harvest more than they expected
to a month ago, for conditions have
improved considerably recently," he
added. "I didn't have much oppor-
tunity to look into the crops there
though."BODIES OF TWO

STOCKS HAVE BIG SLUMP

New Low Mark Is Made in Some
Issues.New York, Sept. 15.—Stock of the
New York, New Haven and Hartford
railroad sold on the New York stock
exchange at 126½. This is the low-
est price which this issue has ever
reached since it was placed upon a
solid dividend paying basis, following
the organization of the company in
1872. Prices slumped severely on the
stock exchange and the decline of the
New Haven passed under the low
mark reached in the panic of 1907. It
closed at 128½.Losses elsewhere were still more
extensive. Declines among the mar-
ket leaders carried them to the low-
est point of the year.Politics, the Moroccan question, dis-
appointing crops, poor business and
selling by European holders are cited
in explanation. Many disquieting ru-
mors have been in circulation as to im-
pending troubles, but they remain
without apparent foundation. Only
one stock exchange firm has suspend-
ed and its difficulties have involved
no other interests.

FAST FREIGHT SAVING IS BIG

Postmaster General Estimates That
Economy Is \$2,000,000.Washington, Sept. 15.—A saving to
the government of fully \$2,000,000 on
the transmission of periodical mail by
fast freight is estimated by Postmas-
ter General Hitchcock after a two
weeks' trial of this method of ship-
ment. The plan was put in effect
Sept. 1 and so far has proved satis-
factory.

Say Sugar Will Be Lower.

New York, Sept. 15.—"Happily the
domestic sugar crops promise a good
yield, and with their harvesting, which
will be in full progress in October, the
present flurry should disappear." So
reads in part a statement issued by
the American Sugar Refining com-
pany, disclaiming responsibility for
the rise.

efforts to prevent disturbances. As
minister of the interior, prior to tak-
ing over the premiership, he was as-
sailed in the duma, in making his
first speech, with cries of "murderer"
and "assassin" when he defended the
alleged illegal acts of police officials
and provincial governors in the sup-
pression of disorder.The retaliatory steps which he took
against the terrorists and Liberals
alike won him the detestation of the
advanced parties and the support of
the administration. He quarreled fre-
quently with the duma and was vic-
torious in his disputes with that body
owing to the confidence which the
emperor placed in him.Stolypin resigned as premier and
minister of the interior on March 20
of this year, but three days later re-
considered his action.

THE RETURN OF THE PRODIGAL

When the elder brother of the prodig-
al son came near his father's house
he heard, according to the authorized
version, "music and dancing." Dr.
Rendel Harris, in an address at West-
minster college, Cambridge, says that
the word for music in the original is
"symphony" and that symphony means
the bagpipes. Wycliffe's version gives
the word symphony, but no other
translator has done so. Wycliffe also
says that he heard "symphony and a
crowd." Now, crowd is the Welsh
crwth or harp. In view of the two
instruments Dr. Harris says that the
elder brother had some justification
for getting angry.—Christian World.

THE ORCHID.

The orchid is a peculiar plant, for,
strange as it may seem, there is no
distinctly orchid odor. One smells
like the violet, others like the rose,
the hyacinth, the daffodil. Orchids are the
monkeys, the minkies of the vegetable
world, in odor as well as form and
tint. No other flower resembles an or-
chid, but orchids are forever aping
butterflies, pansies, boots, spiders
pitch plants, birds and what not. And
they are not absolutely certain to look
just the same twice in succession.

OPPOSE WAR OVER MOROCCO

But German Socialists Will Support
Judicious Colonial Policy.Berlin, Sept. 15.—Discussing the
Moroccan situation at the Social-Dem-
ocratic congress Herr Bebel, the lead-
er of the Socialists in the reichstag,
denounced the reports that the Social-
ists would proclaim a general political
strike in case of war. The opposition
of German Socialists to such methods
was well known, he said.Herr Bebel added that the Social-
ists would support a judicial colonial
policy and demand for Germany full
equality in the commerce and indus-
trial development of Morocco, but
they believed that it would be crim-
inal and frivolous to engage in war
on account of Morocco.

BRYAN ON COUNTRY LIFE

Subject of His Address at Conserva-
tion Congress.Kansas City, Sept. 15.—William J.
Bryan will address the National Con-
servatism congress here next month
on "The Country Life Movement." The
address will be made the closing
day, Sept. 27.Efforts still are being made to in-
duce Theodore Roosevelt to come here
for the congress.

SHOTS TWO; KILLS SELF.

wife and his mother-in-law, Mrs. M.
E. Smith, and then committed suicide
here. The women will recover.

PREMIER STOLYPIN.

Attacked and Shot While
at Performance in Theater.VILLAGERS DEFIED BY
TEACHER'S ASSAILANTFugitive Supposed to Be George
Brown of Hanna, N. D.Winnipeg, Sept. 15.—Residents of
La Riviere, a village nineteen miles
north of Snowflake, had an opportu-
nity of capturing the man who com-
mitted the assault on Miss Price, the
schoolteacher. The suspect was
board a westbound freight train at
La Riviere, but was pulled off by the
train crew as he was mounting the top
of the car.He then went to the village, and
while eating supper at the hotel his
resemblance to the suspect attracted
the attention of four men hanging
around, but they were all afraid to
arrest him, no one in the village at the
time having the necessary authority
or being armed.A telephone message was sent to
Snowflake to the police there and two
constables came over in an automo-
bile.In the meantime a cordon was
formed around the suspect after he
had left the hotel and was proceeding
down the track, but he easily broke
through, holding a revolver in a
threatening position aimed at his
would be captors, none of whom was
armed.Late at night the constables
searched the railway yards and all
buildings and likely hiding places.He has been recognized by his de-
scription by the Halliceys, farmers of
Hanna, N. D., as a farmhand named
George Brown, who worked for them
in July and August and who was dis-
missed owing to his unbecoming be-
havior to a fifteen-year-old girl in the
Halliceys' employ.

GRAND JURY NEAR FINISHED

Dr. Dumas Still Feels Confident of
Outcome.Bemidji, Minn., Sept. 15.—Although
it has been in session since Tuesday
noon the Beltrami grand jury is still
listening to evidence in the case
against Dr. D. F. Dumas, mayor of
Cass Lake and son of a Minneapolis
business man, who is charged by the
state fire marshal's office with arson
and robbery.The long drawn out work of the
grand jury is believed to indicate
preparation of charges other than the
alleged plot to burn and rob the post-
office building at Puposky. The grand
jury is expected to report soon.Dr. Dumas, who is spending much
of his time here, expressed amuse-
ment over the publication in an out-
side paper that he was becoming
downhearted over the outcome of the
charges against him. "If I am less
jolly than usual," he said, "it is news
to me, for I feel as confident of the
outcome now as I have at any time.
This talk that the case is causing me
to become discouraged is simply news-
paper dope."

Prices Decline on Bourse.

Berlin, Sept. 15.—The German for-
eign office anxiously awaited the cli-
max of the Franco-German difficulty
which will be reached with the arrival
of the French courier who left Paris
with France's reply to the German
Moroccan proposals. The bourse,
nervous for weeks, has settled into a
depression that resulted in a general
decline of prices.

\$180,000 ON SUNKEN RAMONA

Alaska Bullion Probably Will Be Re-
covered From Ship.Seattle, Wash., Sept. 15.—When the
steamer Ramona foundered and sank
off Spanish island, Alaska, last Sun-
day night she carried down with her
\$180,000 of gold bullion from the
Treadwell mine, consigned to San
Francisco. The ship lies in water
that is usually smooth and it is
thought the treasure will be recovered
easily.

SECOND CHOICE IS IMPORTANT

After First Complimentary Votes Are
Cast in the Convention Will Come
Real Test of Strength—Champ Clark
Refuses to Invade States Where His
Rivals Reside.

By ARTHUR W. DUNN.

Washington, Sept. 15.—[Special.]—
Men who are considering presidential
politics, and there are quite a num-
ber who do the figuring in the dull
season, have been watching the vary-
ing tides in the Democratic party with
much interest.From the present outlook it appears
that the second choice of delegates
will cut more of a figure than anything
else in determining who will be the
nominee for president. In all proba-
bility there will be more "favorite
sons" than have been seen in any con-
vention in recent years. It is not be-
lieved that these will last very long
and that the delegations which vote
for them will swing to one or the other
of the real candidates and that the
second choice of the "favorite sons"
states will name the successful man.Consequently there is much specula-
tion as to where the states with such
candidates will go after the compili-
mentary ballots have been given.

"Favorite Sons" States.

At present it is conceded that Wilson
of New Jersey, Harmon of Ohio and
Clark of Missouri are not in the "fa-
vorite son" class. Underwood of Ala-
bama, Baldwin of Connecticut, Dix
of New York, Marshall of Indiana,
Newlands of Nevada and the Pacific
coast, Hoke Smith of Georgia, Foss of
Massachusetts and Plaisted of Maine
may all be classed as men destined to
receive complimentary votes, but whose
chances for the nomination are remote.
Just what the delegations from these
states and delegations from other
states which may support them may
do is important in making calculations
as to the result.Naturally the friends of the leading
candidates claim that their man is to
have the benefit of the scattered votes
when the break comes. The fact that
such delegations cannot openly ex-
press a preference for second choice
as long as the "favorite son" is before
the convention will have a tendency
to prolong the uncertainty of the re-
sult.

Clark Is Courteous.

Friends of Champ Clark made an
effort to get a campaign started for
him in Ohio, but those who attend to
the political business for the speaker
declined to allow any campaign to be
made for delegations in Ohio, New
Jersey, Indiana and other states where
activity for a resident has been man-
ifested and where there are actual
presidential candidates. More than
that, they have said that inasmuch
as the speaker is not an avowed candi-
date his friends cannot have a formal
organization looking after his inter-
ests.

Alabama Comes Forward.

Oscar Underwood was not among
the list of eligibles that Mr. Bryan
put forth as presidential possibilities
satisfactory to him. But that has not
deterred the Alabama delegation from
making Underwood a favorite son.
By the way, Underwood, like Bailey,
is one of the few men who have been
bold enough to talk right out and say
what they think of Bryan. Under-
wood made his remarks when Bryan
denounced the wool bill as a fraud
upon the Democratic party.

Navy Nature Fakers.

Reports that whales were careening
beside the submarines of the navy
while these under water vessels were
out in the maneuvers are considered
nature fakes by some of the more
skeptical navy officers. They realize
that the silly season of sea serpents
and fish stories is at its height and
that the fellow with the biggest story
gets the most notice in the headlines.
When telling a story tell a good one.
Whales making playmates of subma-
rines is the best so far.

Peaceful Aguineldo.

"Aguineldo has dropped out of sight,"
remarked a man who has just returned
from the Philippines. "A dozen years
ago he was the most notorious individ-
ual in the United States or its posses-
sions. Now he is peacefully making a
hemp plantation in Cavite province.
When he ended his warfare with the
United States he stopped for good and
all. He may not be reconciled to Amer-
ican rule in the Philippines, but he
has never uttered a word to that ef-
fect since he accepted the terms of our
government."

Known by Their Tags.

They have a new way of spotting
Americans abroad. It seems that near-
ly all smokers from this country carry
bags of tobacco with the little round
tags hanging on the outside of their
pockets. These tags on one famous
brand of tobacco are so well known
that the citizenship of the man who
bears it is at once known. Particu-
larly is this the case with the American
blue jackets and marines that have
been abroad with the warships. The
American sailor can always be told by
his tag.

RODNEY J. DIEGEL.

Protests That He Has No
Knowledge of Bribery.

DIEGEL HAS NOT CONFESSED

Says Now He Knows Nothing of Any
Bribery in Ohio.Dayton, O., Sept. 15.—Rodney J.
Diegel, the elusive convicted sergeant-
at-arms of the Ohio state senate, has
not confessed. After much ado lest
the man sentenced to three years in the
penitentiary for complicity in bribery
would make sensational revela-
tions to save himself from prison, Die-
gel appeared here and declared he had
absolutely no knowledge of the guilt
of any one, and steadfastly maintained
innocence of the crime for which he
was convicted.LIGHTNING KILLS
YOUTHFUL VICTIMNorth Dakota Barn Struck and
Several Injured.Langdon, N. D., Sept. 15.—One
young man was killed and four others
were injured when lightning struck a
barn on the Otto Detler farm south-
west of here. William Wahlitz, six-
teen years old, was killed and Leonard
Detler, Otto Detler, Rudolph Miller
and James Brockhoff were injured.The escape of Brockhoff was mirac-
ulous, as it was not known that he
was in the barn. The four persons
known to have been in the building
all rendered unconscious, were taken
out and it was not until smoke was
seen issuing from the haymow and
men tried to fight the fire that Brock-
hoff was found. The fire already had
reached him, burning his clothing.Sixteen horses were in the barn and
all of them were knocked unconscious
and were lying on the floor when as-
sistance arrived, but one by one they
recovered and were taken out.Considerable other damage was also
done in the storm on the Frank Caves
farm. A big barn was struck and
burned, while several other big barns
also were destroyed.

EARLY SETTLER IS DEAD

Mrs. Mary Archambault, Born in St.
Paul in 1842.St. Paul, Sept. 15.—Mrs. Mary
Archambault, one of the first white
children born in St. Paul, is dead at
the home of a daughter, Mrs. William
Reddy.Mrs. Archambault was the daughter
of Charles T. Rouleau, Sr., and was
born Aug. 24, 1842. She was one of
the first three children baptized in the
chapel of St. Paul, the ceremony hav-
ing been performed by Father Gaultier,
a Catholic missionary.She was a sister of Captain Charles
T. Rouleau of the police department,
now in charge of Duane street police
station, and besides him is survived
by one sister, Mrs. Anthony Vallee,
Zephine Archambault, her husband,
and six children.Mrs. Archambault suffered a stroke
of paralysis several months ago.
She is mentioned in Newton's "Pen
Pictures" of St. Paul as one of the first
white children born here, and in his
book he includes an interesting
paragraph of Mrs. Archambault's im-
pressions of the growth of St. Paul.

MONTANA'S CROP IS LARGE

Louis Hill Thinks It Will Double Last
Year's.St. Paul, Sept. 15.—Twice as many
bushels of wheat will be harvested in
Montana this fall as last year or in
1909, according to Louis W. Hill, pre-
sident of the Great Northern railroad,
who has returned from a trip on which
he visited Glacier and Yellowstone
parks.In 1909 and 1910 Montana raised
2,500,000 bushels of wheat," he said,
"but they expect to harvest 5,000,000
bushels this year. Of course there is
more acreage devoted to this grain.
Our estimates indicate there will be
twice the yield of last year."In North Dakota they estimate they
will harvest more than they expected
to a month ago, for conditions have
improved considerably recently," he
added. "I didn't have much oppor-
tunity to look into the crops there
though."BODIES OF TWO

STOCKS HAVE BIG SLUMP

New Low Mark Is Made in Some
Issues.New York, Sept. 15.—Stock of the
New York, New Haven and Hartford
railroad sold on the New York stock
exchange at 126½. This is the low-
est price which this issue has ever
reached since it was placed upon a
solid dividend paying basis, following
the organization of the company in
1872. Prices slumped severely on the
stock exchange and the decline of the
New Haven passed under the low
mark reached in the panic of 1907. It
closed at 128½.Losses elsewhere were still more
extensive. Declines among the mar-
ket leaders carried them to the low-
est point of the year.Politics, the Moroccan question, dis-
appointing crops, poor business and
selling by European holders are cited
in explanation. Many disquieting
rumors have been in circulation as to im-
pending troubles, but they remain
without apparent foundation. Only
one stock exchange firm has suspend-
ed and its difficulties have involved
no other interests.

FAST FREIGHT SAVING IS BIG

Postmaster General Estimates That
Economy Is \$2,000,000.Washington, Sept. 15.—A saving to
the government of fully \$2,000,000 on
the transmission of periodical mail by
fast freight is estimated by Postmas-
ter General Hitchcock after a two
weeks' trial of this method of ship-
ment. The plan was put in effect
Sept. 1 and so far has proved satis-
factory.

Say Sugar Will Be Lower.

New York, Sept. 15.—"Happily the
domestic sugar crops promise a good
yield, and with their harvesting, which
will be in full progress in October, the
present flurry should disappear." So
reads in part a statement issued by
the American Sugar Refining com-
pany, disclaiming responsibility for
the rise.

ILL BUILD DIKES TO MINE IRON

thern Water Power Co., North-west Paper Co. and Mine Owners Come to an Agreement

GARDING THE RIVER DAM

Easement to Maintain Dam At its Present Height Admitted by the Mine Owners Named

An agreement has been placed on record in the court house which is of utmost importance to mining men in the country north of Brainerd. It gives the easement of the company operating and maintaining the dam at Brainerd and its resulting right to flood lands by the dam as maintained at its present height.

When rumors were heard that the dam might be raised six feet at Brainerd the mining interests in all the country north of Brainerd, which included exploration work and established mines, became anxious about their properties, for it is hard enough to find a mine on land without having to dive into the water after it.

David Williams, Will C. Brown, Lillian Brown, his wife, of Duluth, Alice P. Waite and Daniel Waite, her husband, of Deerpark, made and filed an agreement with the Northern Water Power Co., the Northwest Paper company and the flowage rights of the river.

The individuals mentioned own lots 11 and 12 and the east half of southeast quarter of section 18 township 46, range 29.

The Northern Water Power Co. is owner of a power dam across the Mississippi river at Brainerd the top of which dam the company claims to be 117 feet above the datum plane of the Mississippi river at Memphis, Tennessee, as fixed by the United States Mississippi river commission.

47.8 feet below the top of the dam as forming the top of the tile pipe United States permanent mark established by the commission and now standing on the left bank of the river about a half mile above the dam.

The power company claims to have raised and maintained the dam at mentioned height for more than twenty years.

By this dam the waters of the Mississippi and its tributaries above have been raised and part of the lands mentioned in this agreement have been overflowed for the last 20 years and the company therefore has such flowage right or easement.

This easement is now in litigation and an action designated as Torrens No. 81. The paper company is a party to the litigation.

Messrs. Williams, Brown and the mine owners claim that there are valuable

deposits of iron ore and other minerals in that portion of their lands flooded by the maintenance of the dam and in and under the bed of the river and its tributary waters at their natural height.

They agree with the power company that it shall maintain its dam at its present height and they shall have the privilege or right to reclaim their flooded lands, so caused by the dam, and the lands under the waters of the river and its tributaries in their natural state, by building dikes, dams, bulkheads, solid fills or otherwise in order to mine and remove the iron ore.

PRESIDENT TAFT UPHOLDS WILEY

Special to Dispatch:—

Beverly, Mass., Sept. 15.—Dr. Harvey W. Wiley, the federal pure food expert, was today upheld by President Taft in his findings upon the charges preferred against the pure food expert by the personnel of the board of the department of agriculture. In his review of the case the president praises Dr. Wiley and holds Dr. Rusby guiltless also.

The president passed over Attorney General Wickersham's recommendation for the punishment of Dr. Wiley by saying the attorney general was not in possession of as much data as is now available. The president further admits a lack of harmony in the department of agriculture and hints that action upon it will follow later.

MORE OPTIONS ARE RECORDED

Henry I. Cohen Gives an Option For Mining Lease to the Martin Exploration Co.

LAND SITUATED IN BRAINERD

Cuyuna Exploration Co. Makes Mining Lease of Lands in Section 2-46-29

Mining leases and mining options are being recorded almost daily at Brainerd, the county seat of Crow Wing county.

Henry I. Cohen, of this city, has given an option for a mining lease to the Martin Exploration Co. and the property mentioned is block seven and block 12 of Frank's addition at the south city limits of Southeast Brainerd near 13th street. The option is for one year.

While exploring the land the Martin Exploration Co. is to furnish Mr. Cohen with weekly reports and with monthly blue prints as well as samples of the ore taken out.

The lease, if entered into, is of 50 years duration and the royalty will be 25 cents per ton with a minimum yearly tonnage of 800 tons. Ninety days are allowed the company to remove its tracks, engines, tools, machinery, etc., on the expiration of the lease.

Swan Peter Nelson and wife, residing near Deerwood, first optioned their land on August 3, 1910 to the late N. P. Emil Carlson who later transferred his interest to W. P. Lardner, of Duluth. Mr. Lardner exercised his right under the option to call for a mining lease to himself and Alexander Hamfield.

The property is described as the south half of the northeast quarter and lot 1 in section 2-46-29.

It is a 50 year lease and the royalty 12 1/2 cents per ton. It is agreed that 8,000 tons shall be mined each year of the first, second and third years and 16,000 tons annually thereafter. Sixty days time is given to remove engines, tools, etc. Sixty days non-observance of the terms of the lease works a forfeiture of the same. Drill holes are to be sampled every 10 feet.

Recently Alexander Hamfield and wife assigned a half interest in the mining lease to the Cuyuna Exploration company and it is said this company will proceed to mine the land under the terms of the lease.

INDIGESTION VANISHES

A little Diapiesin really does make your out-of-order Stomach feel fine in about five minutes

Take your sour out of order stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach, it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapiesin and let you eat one 22-grain Triangule and see if within five minutes there is left any trace of your former misery.

The correct name for your trouble is Food Fermentation—food souring; the digestive organs become weak; there is a lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after eating, vomiting, nausea, heartburn, griping in bowels, tenderness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, biliousness, sick headache, nervousness, dizziness or many other similar symptoms.

If your appetite is fickle and nothing tempts you, or you belch gas, or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this 'there is but one cause—fermentation of undigested food.

Prove to yourself in five minutes that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapiesin.

ILL BUILD DIKES TO MINE IRON

thern Water Power Co., North-west Paper Co. and Mine Own-ers Come to an Agreement

GARDING THE RIVER DAM

Easement to Maintain Dam At its Present Height Admitted by the Mine Owners Named

An agreement has been placed on ord in the court house which is of utmost importance to mining men the country north of Brainerd. It gives the easement of the com-pany operating and maintaining the dam at Brainerd and its resulting right to flood lands by the dam as maintained at its present height.

When rumors were heard that the dam might be raised six feet at Brainerd the mining interests in all the country north of Brainerd, which in-cluded exploration work and estab-lished mines, became anxious about their properties, for it is hard enough to find a mine on land without hav-ing to dive into the water after it.

David Williams, Will C. Brown, Lillian Brown, his wife, of Du-luth, Alice P. Waite and Daniel Waite, her husband, of Deerwood, made and filed an agreement with the Northern Water Power Co. and the Northwest Paper company giving the flowage rights of the dam.

The individuals mentioned own lots 11 and 12 and the east half of southeast quarter of section 18 township 46, range 29.

The Northern Water Power Co. is owner of a power dam across the Mississippi river at Brainerd the top of which the company claims to be 1178 feet above the datum plane of the Mississippi river at Memphis, Tennessee, as fixed by the United States Mississippi river commission 47.8 feet below the top of the dam cap forming the top of the tile pipe. United States permanent bench mark established by the com-mission and now standing on the west bank of the river about a half a mile above the dam.

The power company claims to have raised and maintained the dam at mentioned height for more than years.

By this dam the waters of the Mississippi and its tributaries above it have been raised and part of the is mentioned in this agreement to be overflowed for the last 20 years and the company therefore has such flowage right or ease-ment.

This easement is now in litigation an action designated as Torrens vs. Williams, et al. The paper company is a defendant of the power company.

Deffers. Williams, Brown and Waite claim that there are valuable

deposits of iron ore and other min-erals in that portion of their lands flooded by the maintenance of the dam and in and under the bed of the river and its tributary waters at their natural height.

They agree with the power com-pany that it shall maintain its dam at its present height and they shall have the privilege or right to reclaim their flooded lands, so caused by the dam, and the lands under the waters of the river and its tributaries in their natural state, by building dikes, dams, bulkheads, solid fills or other-wise in order to mine and remove the iron ore.

LAND SITUATED IN BRAINERD

Cuyuna Exploration Co. Makes Min-ing Lease of Lands in Sec-tion 2-46-29

Mining leases and mining options are being recorded almost daily at Brainerd, the county seat of Crow Wing county.

Henry I. Cohen, of this city, has given an option for a mining lease to the Martin Exploration Co. and the property mentioned is block seven and block 12 of Frank's addition at the south city limits of Southeast Brainerd near 13th street. The op-tion is for one year.

While exploring the land the Mar-tin Exploration Co. is to furnish Mr. Cohen with weekly reports and with monthly blue prints as well as sam-ples of the ore taken out.

The lease, if entered into, is of 50 years duration and the royalty will be 25 cents per ton with a minimum yearly tonnage of 800 tons. Ninety days are allowed the company to re-move its tracks, engines, tools, ma-chinery, etc., on the expiration of the lease.

Swan Peter Nelson and wife, resid-ing near Deerwood, first optioned their land on August 3, 1910 to the late N. P. Emil Carlson who later transferred his interest to W. P. Lardner, of Duluth. Mr. Lardner ex-ercised his right under the option to call for a mining lease to himself and Alexander Hamfield.

The property is described as the south half of the northeast quarter and lot 1 in section 2-46-29.

It is a 50 year lease and the royalty 12 1/2 cents per ton. It is agreed that 8,000 tons shall be mined each year of the first, second and third years and 16,000 tons annually there-after. Sixty days time is given to remove engines, tools, etc. Sixty days non-observance of the terms of the lease works a forfeiture of the same. Drill holes are to be sampled every 10 feet.

Recently Alexander Hamfield and wife assigned a half interest in the mining lease to the Cuyuna Explora-tion company and it is said this com-pany will proceed to mine the land under the terms of the lease.
